

# Aye Myint

323-344-2312 | [koayenay@gmail.com](mailto:koayenay@gmail.com) | <https://koayenay.github.io/Portfolio>

## EDUCATION

---

**California State University of Northridge**

Bachelor of Science in Computer Science

Expected Graduation: May 2024

GPA: 3.2

## TECHNICAL SKILLS

---

**Languages:** JavaScript, Java, Python, C, C++, HTML/CSS

**Frameworks:** React, Express, Redux

**Libraries:** NumPy, Pandas, Matplotlib, Selenium, Bootstrap, Mongoose, Node.js, MongoDB, Firebase

**Developer Tools:** Git/GitHub, APIs, VSCode, PyCharm, Atom, IntelliJ

## PROJECTS

---

**Boracle – The Oracle for Your Body** | *ReactJS, Firebase*

Aug 2023 – Present

- Collaborated with a diverse team of 25 researchers, including lead researchers and collaborators from multiple universities, to develop Boracle, a platform integrating data from various wearable devices for intelligent health analysis.
- Played a key role in the development of a web application using React.js and Firebase as the database, contributing to seamless data integration and analysis within a large, multidisciplinary team.
- Implemented essential features and functionalities, ensuring a user-friendly and responsive design for enhanced accessibility and usability.
- Engaged in comprehensive market research of commercial wearable devices and their digital health applications, contributing to the formulation of project strategies and objectives within a large research team.

**Barbershop Website** | *HTML, CSS, JavaScript, ReactJS*

Apr 2023 – Apr 2023

- Developed a professional website for a newly-opened barbershop showcasing strong technical skills in HTML/CSS and JavaScript.
- Created a user-friendly website with multiple navigation bars and sections, including Home, About, Services, Team, Testimonials, and a Footer, to provide a seamless user experience.
- Implemented responsive design techniques to ensure the website is mobile-friendly and looks great on all devices.

**Admission Checker** | *Python, Selenium*

Apr 2022 – May 2022

- Developed a Python program using Selenium to automate the process of checking admission status for multiple universities, including CSU Long Beach, CSU Northridge, CSU Fullerton, and CSU Los Angeles.
- Built the program from scratch using Python, including inputting student information and navigating to the appropriate pages for each university.
- Researched and troubleshooted issues, including navigating input fields with the same ID on different pages, and used the `wait()` function to resolve these issues.

## EXPERIENCE

---

**Assistant Manager**

Jun 2020 – June 2023

7-Eleven

Torrance, CA

- Maintained inventory levels and utilized sales data and customer feedback to make informed decisions about which products to stock and in what quantities
- Developed strong relationships with suppliers to ensure timely delivery of products and negotiated favorable terms
- Collaborated with healthcare professionals and held discussions to address any concerns or issues that arose during their monthly visits
- Trained staffs to increase sales through product knowledge development and customer service excellence

## ACTIVITIES

---

**Scholar/Alum** | *STEM Advantage*

Oct. 2020 - Present

- Cultivated mentorship relationship with a STEM industry professional with biweekly touch-base
- Participated in professional development workshops and industry career panels
